

C40 High Performance Crusher

Features & Benefits

Conveyor -
Extended 36" main conveyor as standard, giving large stockpile capacity. Conveyor lowers and raises hydraulically and is easily removable for maintenance.

Power Unit -
CAT C6.6 ACERT 225hp (166kW) engine with all round access for maintenance. Innovative hydraulic system provides significant improvements in fuel economy.

Crusher -
True 40"x24" (1016mmx610mm) jaw. Reversible hydrostatic drive. Reversible jaw plates. Fully hydraulic closed size setting adjust.

Control Panel -
User friendly control panel with excellent machine diagnostics can drastically reduce downtime for maintenance.

Feeder -
Folding hardox hopper mounted over vibrating feeder with integral pre-screen. Feeder rate can be regulated manually or automatically by the load sensing jaw.

Options

- Roll in bogie.
- Hopper extension.
- Overband magnet.
- Crusher deflector plate.
- Water pump and dust suppression.

With the proven C50 Jaw Crusher now successfully crushing worldwide as the largest track crusher in its class, McCloskey International has now launched the C40 as a more compact alternative.

The C40 Jaw Crusher continues McCloskey's focus on quality, durability, and productivity. With a fuel efficient 225hp CAT C6.6 engine, 40" wide jaw and user friendly control panel with excellent machine diagnostics, the C40 provides contractors a highly portable option while meeting production expectations.
