

## A NEW DEFINITION OF HARD WORK

The EZ Screen 550 is one mean screening machine. Drive it hard day in and day out, and you'll get no complaints. It's built so rugged, it comes with a 2-year warranty. That's how confident we are that it'll take whatever you need screened and keep coming back for more.

Match the EZ Screen 550 up with a 1-yard Skid-Steer or a 96" bucket, and you've got a production team made for one another. A team that'll take on all kinds of materials -- topsoil, sand, gravel, compost -- even metals. Powered by a reliable 5.5 HP Honda gas engine, the EZ Screen 550 features a patented non-hydraulic vibratory drive that delivers aggressive screen action. One that'll shake the fines out of anything you load into it. Change materials and change the 5' x 4' screens in a snap.

Hard working is only part of the EZ Screen 550 story. With its highest-quality components, it's also low maintenance. Plus it works dirt cheap. This big production number comes with a small price tag. Just \$9500, plus freight. That price includes rugged reliability, big production, and EZ-come/EZ-go portability. Just hitch it up to a ¼-ton pickup and haul it off to the next job.

The EZ Screen 550. If it isn't what you need in a screening machine, what you need doesn't exist.

# EZ SCREEN 550

## FEATURES:

- Loading bucket size range 1/2 to 1 yard (96" or less)
- Feed height at hopper 68"
- Inside access for bucket 100" wide x 48" high
